Dear Bill:

After your call yesterday, I discussed the duplication of our check with our Accounting Department. It seems that you are correct in our sending two checks because we have copies of both. One was dated in February and the other in March. Needless to say, we are taking extensive measures to eliminate this problem.

By your calling us about receiving two checks for the same commission, it says a lot for you, Bill. There are not many people who would do this and it shows that you and your company have a great deal of credibility. I am very appreciative of your advising us of this matter and am glad to see we are doing business with such fine people. I will do everything in my power to continue this relationship.

Sincerely,

Rich
